

How Do I Reset My Profile Password?

A step-by-step guide to resetting your attendee login.

Written by Josh Toole (Attendify)

You can easily reset your password and regain access to your profile.
If you are on a desktop, follow these steps:

1. Open the virtual event you need to access by visiting the event link provided by the event organizer.
2. Enter the email address that you use to access the event and click "Next".
3. Click "Forgot Password?":

The screenshot shows a login page for a virtual event titled "Sales Conference 2021" which runs from June 17 to 19, 2021. The page features a header with the event name and dates, a main heading "Join Sales Conference 2021", and two input fields: "Email" (containing "vlad.d@attendify.com") and "Password". Below the input fields are two buttons: "Forgot password?" (highlighted with a green border) and "Log In". At the bottom of the page, it says "Powered by attendify".

4. Double-check that your email is entered correctly, then click the "Reset Password" button:

SC **Sales Conference 2021**
June 17 - 19, 2021

5. You should see a confirmation that the password reset email has been sent.
6. Find the email titled "Reset Your Password" in your email account, and click the button within the email. (This email should come from support@attendify.com).
7. Once you click the button in the email, you will be redirected to a page to reset your login.
